Figures and Images in LaTeX

Siddarth Kumar

November 12, 2026

1 Inserting Images

The graphicx package is used to insert images.

Figure 1: MNIT Jaipur Institute Logo

As shown in Figure 1, this is the logo of MNIT Jaipur.

2 Resizing Images

Figure 2: Resized MNIT Logo

3 Trimming Images

The trim option removes portions of an image.

Figure 3: MNIT Logo after Trimming

4 Rotating Images

The angle option rotates an image.

Figure 4: MNIT Logo Rotated by 45 Degrees

5 Minipage Environment

The minipage environment allows us to place text and images side by side.

MNIT Jaipur
Malaviya National Institute of Technology Jaipur is a technical institute located in Jaipur, Rajasthan.
It offers undergraduate and postgraduate programmes in engineering and technology.
